PRODUCT SPECIFICATIONS

- ▶ **LLDPE** (Low Linear Density Poly Eurethane) plastic according to EN71(European nation) and certified by TUV Rheiland. Which is no toxic and child safe and has UV coating to prevent from color fading.
- ▶ **GALVANISED POLES** – Metal parts used for playground equipment measuring of diameter 110mm and thickness of 2.2mm with electro static powder coating to prevent from rusting.
- ▶ **EPDM** (Ethylene Propylene Diene Monomer) a type of synthetic rubber granules used for flooring which will prevent the falling of children. It is an ‘m’ class rubber (a saturated chain of polymethylene).
- ▶ **ARTIFICIAL GRASS** also known as Astro turf – Best used for indoor and outdoor.
Advantages - Does not breed insects| Easy to maintain| Quick dry| Low maintenance| Cost effective
- ▶ **BERGO TILES** - The strongest floor tile with a straight line, open pattern with a distinctive character, providing an attractive environment. Its multifunctional properties can solve the flooring problems indoor and out, everything from splintery terrace decking to damp and /or moist affected storeroom and cellar floors. Comfortable to walk on, even in bare feet in the hottest of summers.
